

TECHNICAL DATA
WEX-NEU
NEUTRAL CLEANER
CONCENTRATE

**Packaged in 55 gallon non-returnable drums,
cases of 4 / 1 gallons,
and cases of 4 / 1/2 gallons in the
Wex-Pro dispensing system (WexPro #2)**

APPEARANCE:TRANSPARENT GREEN LIQUID

ODOR:LIGHT LEMON

NON-VOLATILE MATERIAL:11.2% ± 0.2%

DETERGENT TYPE: Synthetic - Biodegradable

SPECIFIC GRAVITY: 1.0083

FLASH POINT: ABOVE BOILING

pH of CONCENTRATE:7

PHOSPHATE CONTENT:NONE

FREE ALKALI:NONE

FREE FATTY ACID:NONE

WEX-NEU NEUTRAL CLEANER CONCENTRATE

WEX-NEU NEUTRAL CLEANER CONCENTRATE is a highly concentrated liquid cleaner designed for all types of floor, wall, and equipment cleaning.

DIRECTIONS FOR USE

AUTOMATIC FLOOR SCRUBBERS

Use WEX-NEU Neutral Cleaner Concentrate at a dilution of 1:128 (1 ounce of WEX-NEU to each gallon of water) for cleaning vinyl, vinyl asbestos, asphalt, rubber, and other resilient floors. WEX-NEU works excellently at the same dilution on terrazzo, ceramic tile, concrete, and other hard surface floors.

PRESSURE WASHERS and SPRAY CLEANERS

Use WEX-NEU Neutral Cleaner Concentrate at a dilution of 1:128 (one ounce of WEX-NEU to each gallon of water) in both low and high pressure washers. The low viscosity of WEX-NEU makes it particularly well suited for syphon type, manual and automatic spray washing equipment.

FLOOR MOPPING and MANUAL CLEANING

Use WEX-NEU Neutral Cleaner Concentrate at a dilution of 1:128 (one ounce WEX-NEU to each gallon of water) for all mopping, damp mopping and manual cleaning. Because WEX-NEU is a neutral cleaner concentrate it is free of harmful alkalies, acids and abrasives. Therefore, it can be used on all surfaces and is very mild to the skin.
